Public Information

Mike R (805)215-4215

Has been very busy this month, turned in application to Lompoc FCC he sent in some letters of recommendation if you want to get involved contact Mike. Took a rack and a party pack to Bull at the men's meeting which will go the ASH; been keeping an eye on Guadalupe city hall rack. Announce at ASC if anyone has a rack that needs Literature to contact Mike.

Webmaster

Robert B. (760) 655-6425

March 2025 Webmaster Subcommittee Report

- Made meeting changes on digital format and PDF schedule
- Contacted Steven to see when the activities page could be worked on, and he said that his availability would be this summer and we can use the PDF done by activities as inspiration rather than try to replicate it to create the web page.
- Updated ASC minutes on the website and they are current until February because March won't be added until approved at next ASC.
- Added fliers to the website and created events
- Removed old fliers
- Our subcommittee got locked out of our Online meeting creator and had to contact for password reset and set it back to the same password so our subcommittee could use the same password.
- It was brought up by a member that our website should not use the word donate, but rather use contribution. We wanted to bring this to the area to determine what the area thinks. When pressing that button on the website it brings you to another page that shows the tradition that NA is self supporting and only NA members should donate. What does the area think, should that button be changed?
- It was brought to my attention when we had formatting issues with the website that the literature subcommittee knows someone who use to be from this area that has experience with website design. They gave me his information, but this is something that I don't have experience with, so I would like someone who might to shed some light on this. He is now based out of another area and as far as I know is not currently in the U.S. In my experience in Narcotics Anonymous I haven't heard of a person outside of a particular area doing service for a different area. Also, not sure how our service body would feel about giving access to our website to someone who isn't part of our subcommittee or our area. Is this something that could be brought up in new business because I don't want to ignore other members wanting to help?
